*Everything an approved affiliate needs to start promoting LogoVary.*

## Product at a glance

LogoVary is a multilingual, standalone Windows desktop application for turning approved logo artwork into organised variants, colourways and professional client-ready delivery packages.

## 1. Before you promote

- Review the customer sales page: <https://helpfulbyte.com/logovary/>
- Review the complete feature and technical page: <https://helpfulbyte.com/logovary-features/>
- Understand the target market: freelance logo designers, graphic designers, branding studios and in-house brand teams.
- Use only accurate product claims and the approved facts in this kit.
- Use your own JVZoo affiliate tracking link once the LogoVary listing is live.
